Parent Testimonial

I could sing praises to my child's teacher! What I appreciate most is that she knows what my child is capable of, and she pushes him to strive for his best and more each and every day. I love that she challenges him, and that she believes in his success. I am also blown away by my child's academic progress. I know that testing is not the most accurate representation of a child's education, but seeing my child's FAST test scores reaffirmed our decision to place him at St. Pat's. He had learned so much, and has gained so much confidence in his skills and abilities.
