

# St. Patrick Catholic School Infection Prevention Plan

**EVERY student will be assigned their own device. This will prevent sharing of devices. The student devices will be sanitized daily.**

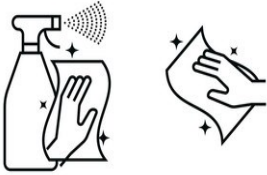

**Student and staff temperatures will be checked upon arrival with a contactless thermometer.**

**Hand sanitizer stations are installed in every classroom, in common areas and at every entrance.**

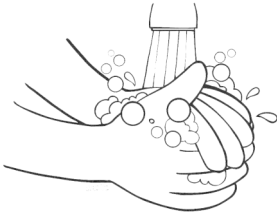

**Students will have personal desk barriers. These will be disinfected at a minimum of two times per day.**

**Classrooms will be disinfected at a minimum of 2 times daily by janitorial and support staff. Switches, door handles and sinks will be frequently cleaned.**

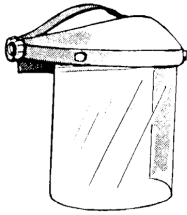

**One way traffic will be implemented in the hallways.**

**Handwashing will be incorporated into classrooms schedules multiple times during the school day.**

**Sick children will wait in a designated area in the lower building office to be picked up.**

**Staff will wear face shields at school. Masks will also be provided to all staff.**

**Students will socially distance in the lunchroom and church hall during designated lunch periods.**

## What can St. Pat's families do this summer to prepare for the 2020-2021 school year?

**Review and practice proper handwashing procedures with your child.**

**Make sure your child has all the necessary school supplies, including a water bottle, to prevent sharing of supplies at school.**

**Follow CDC and local public health guidelines to prevent the spread of Covid-19.**

**Stay connected to current health and safety updates through facebook, flocknote, the school website and emails.**
